

Turbomeca signed a Support By the Hour contract with ADAC Luftfahrt Technik GmbH

Dallas, 15 février 2012

This Support by the Hour contract, SBH®, covers 10 Arrius 2B2 powering five EC 135T2 of ADAC's end customer, ANWB Medical Air Assistance.

ADAC Luftfahrt Technik GmbH is situated near Bonn, Germany, performing airframe and engine maintenance for various helicopter operators in Europe like ADAC, ANWB and Luxembourg Air Rescue.

ANWB's subsidiary Medical Air Assistance (MAA) is located in Utrecht, Netherlands. From there MAA manages their EC135 medical rescue helicopter fleet to provide air rescue in the Netherlands. They operate their trauma helicopters for academic hospitals in Amsterdam, Groningen, Nijmegen and Rotterdam. In 2011, MAA started to introduce to their fleet 24/7 flying.

Turbomeca (Safran group) is the leading helicopter engine manufacturer, and has produced over 68 000 turbines based on its own designs since the company was founded. Offering the widest range of engines in the world and dedicated to 2,350 customers in 155 countries, Turbomeca provides a proximity service thanks to its 16 sites, 26 Maintenance Centers, 24 Repair & Overhaul Centers and 90 Field representatives and Field technicians. Microturbo, the subsidiary of Turbomeca, is the European leader in turbojet engines for missiles, drones and auxiliary power units.
